

1999

Our lives have been busy, and time has been short  
With all work no play, you have been a good sport  
The classes we've taken, have made us so smart  
I just do not like, how they have kept us apart  
Our dog is a spaz, but the ducks have a home  
Now they do not live, where the coyotes roam  
We built a stone wall, have steps made of bricks  
We made a new shed, but cabinets were tricks  
This year had surprises, you made your first quilt  
Paul got involved with the things that he built  
Now if we're lucky our Toyota's will last  
Y2K will not kill us in a big giant blast  
Now that it's Christmas and the year will be new  
I want you to know that I will always love you
