

**2003**

**Two-thousand and three flew by in a flash  
Along with our time went all of our cash  
Building a bedroom and a laundry room too  
With only a day when the skies were blue  
The year had some high point and some that were sad  
The stress of our schedule can be pretty bad  
Ben had his moments  
He's such a big tease  
But one thing's for sure  
He hates Chuck-E-Cheese  
He learned all his colors  
He knows how to talk  
Hard to believe since nine months he could walk  
So now till the New Year  
Let's soak in the tub  
We'll visit our family and eat lots of grub  
With all this year brought us  
One thing still stands true  
Life just gets better each day I'm with you**
